PROFESSIONAL SUMMARY

Frontend Developer and B.Tech student with hands-on experience in web development, AI-integrated applications, and IoT-based systems. Skilled in HTML, CSS, JavaScript, and React for building responsive and user-friendly web interfaces. Experience in developing AI-powered applications using APIs and deploying them through modern web platforms. Worked on IoT-based projects using microcontrollers such as ESP32 to enable real-time data monitoring and smart device communication. Currently, the knowledge in cybersecurity is expanding, focusing on web vulnerabilities, secure coding practices, and penetration testing concepts. Passionate about combining development, AI, and IoT expertise to build intelligent and secure digital systems.

EDUCATION

- **MUTHOOT INSTITUTE OF TECHNOLOGY AND SCIENCE** September 2023 – May 2027
Bachelor of Technology Computer Science & Engineering
CGPA: 8.02
- **BHANVANS VIDYA MANDIR GIRINAGAR** May 2023
Senior Secondary (12th Grade)
Percentage: 84.21%
- **SECONDARY (10th GRADE)** May 2021
Percentage: 79%

EXPERIENCE

- **INTERN UNDER SEMICONDUCTOR VERTICAL - QUEST GLOBAL** Present
 - Contributed to the development of a web-based platform for Physical Design (PD) report analysis and visualization.
 - Designed and implemented frontend features using React to streamline the review of backend VLSI design reports.
 - Integrated REST APIs with the user interface for report upload, processing, and data presentation.
 - Enhanced user experience through interactive dashboards, tables, and report navigation functionalities.
 - Worked closely with domain experts to understand Physical Design workflows and reporting requirements.
- **MERN FULL STACK DEVELOPER INTERN - UPTOSKILL** October 2025 – February 2026
 - Contributed to the full-stack development, with responsibilities for building front-end components in React.js and creating server-side APIs using Node.js and Express.js.
 - Gaining practical experience in Git version control, debugging, code reviews, and performance optimization.
- **FRONT END WEB DEVELOPMENT INTERN - EDUNET FOUNDATION** August 2025 – October 2025
 - Completed a 6-week AICTE-recognised internship on Front End Web Development, implemented by Edunet Foundation in collaboration with IBM SkillsBuild.
 - Gained hands-on experience building responsive web interfaces and applying industry-aligned frontend development practices.
 - Built a Dynamic Weather Dashboard featuring live weather data, air quality monitoring, and 5-day forecasting integrated with a live weather API and deployed on Render.

SKILLS

- **Security Concepts:** Penetration Testing Concepts, Vulnerability Assessment
- **Programming Languages:** Python, C, JavaScript
- **Frameworks:** HTML, CSS, React, FastAPI
- **Databases:** MySQL, MongoDB
- **Tools & Platforms:** Git, GitHub, Render
- **Soft Skills:** Problem Solving, Time Management, Teamwork, Leadership, Adaptability, Conflict Resolution
- **IoT:** ESP32, Arduino, Sensor Integration, Embedded Systems, KiCAD

CODING

- **LeetCode:** Rank 639,972
- **HackerRank:** C Programming – Silver

PROJECTS

• CYRA

ESP32, React.js, Machine Learning

- Top 300 Finalist in All Kerala level Tinker-her-hack
- Developed an ESP32-based wearable device capturing real-time physiological data.
- Built a React.js dashboard for biometric visualization and cycle insights.
- Integrated machine learning models for personalized cycle prediction.

• CARE

ESP32, Flutter, BLE, Arduino IDE

- Developed a wearable exoskeleton rehabilitation system for stroke patients.
- Used ESP32, MG995 servos, MAX30102 and DS18B20 sensors.
- Implemented BLE communication with a Flutter mobile application.
- Built a mobile dashboard for monitoring and rehabilitation tracking.

• AMMAYI-GPT

React.js, Gemini-AI (gemini-2.5-flash-lite)

- Top 10 Finalist at the College-Level Useless Project Hackathon powered by TinkerHub.
- Built a conversational AI chatbot using React.js and Google Gemini API.
- Applied prompt engineering and real-time response rendering.
- Deployed on Vercel with a fully responsive UI.

<https://ammayi-gpt.vercel.app>

ACHIEVEMENTS

- Top 300 Finalist – Women Makers Hackathon Kerala (CyRa)
- GHCI'26 Scholar
- Invited to Women Makers Celebration at KSUM
- College Top 10 Finalist – Useless Project Hackathon powered by TinkerHub.
